

# Florida Repeater Council, Inc.

## Expired Coordinated Repeaters

**The following repeaters' coordinations have expired on the date indicated. If the coordination is not renewed within six (6) months after that date then the coordination will be revoked, even if the repeater is in-service. The frequency pair may be reissued (recoordinated) at any time thereafter. The expired repeater's trustee will then be responsible for resolving interference to the newly coordinated repeater by FCC Rules §97.205(c). If any of these repeaters are familiar to you and are known active then please urge the trustee to submit the required update no later than 6 months after the expiration date.**

(Sorted by district then last update then callsign)
